

Our Services

National Capabilities

Signature has amassed a team of IT professionals from across the nation and around the globe. Our reach allows us to staff virtually any IT project in any location at any time. Regardless of your staffing needs, Signature is the company for you.

Areas of Expertise

Signature's team is comprised of both functional and technical IT professionals with a wide range of skills. These include:

- Application Development and Programming
- Analysis and Design
- Project Management
- Architecture
- Database Development and Administration
- System/Software - Implementations, Upgrades and Support
- Network Security
- ERP Systems
- Quality Assurance and Testing
- Training

We specialize in staffing projects that require hard-to-find IT skills, and we are constantly augmenting our staff with IT Professionals that stay ahead of the technology curve.

Industry Knowledge and Experience

Signature strongly believes that industry experience is just as important as technological expertise. Our IT professionals have worked in virtually every business sector, including:

- Banking and Financial Services
- Aerospace
- Higher Education
- Electronics

- Transportation
- Government
- Technology
- Pharmaceutical
- Automotive
- Hospitality/Travel and Leisure
- Manufacturing

Having this industry-specific experience allows our consultants to enter your job site armed with both the appropriate technological skills and a full understanding of what your company does and who your competitors are. This helps to eliminate the learning curve and increase performance efficiency.
