

**JOHN Q PUBLIC**

**SUMMARY**

Senior IT position utilizing **20+ years experience** as a programmer analyst, systems programmer, team leader and mentor.

**SKILLS**

COBOL/COBOL II	10+ yr	OS/MVS	10+ yr	Also Used:
ASSEMBLER	10+ yr	DOS/VSE	5+ yr	MODEL204
PL/1	10+ yr	TSO/ISPF	10+ yr	FILE-AID
DB2/SQL	5+ yr	ICCF	5+ yr	CHANGEMAN
IMS DB/DC	5+ yr	ACF/VTAM NCP	1+ yr	EXPEDITER
IDMS	1 yr	LIBRARIAN	10+ yr	INTERTEST
CICS	10+ yr	PANVALET	10+ yr	LOTUSNOTES
VSAM	10+ yr	ROSCOE	2 yr	EASYTRIEVE

**ADDITIONAL INFORMATION:**

Strong problem solving skills. Self motivated. Excellent people skills. Full Life Cycle experience. Strong knowledge of IBM utilities. Functions well in both team and stand alone environments.

**EXPERIENCE**

**10/01 to Present      United Parcel Service, Louisville, KY  
Senior Consultant**

- Developed and implemented CICS MQ series, Cobol II, DB2/SQL applications in an OS/390 Environment for the Feeder Scheduling system as part of the Transportation Technologies Group.
- Provided production support, including problem analysis, user interface problem resolution and implementation.

**8/01 to 10/01      AdminaStar Federal, Louisville, KY  
Senior Consultant**

- Produced large reports for multiple lines of business at various sites.
- Worked with business analysts, users and outside vendors to provide Medicare information and ad-hoc reports.
- Utilized Cobol, Eztrieve, Endeavor, Lotus Notes, Excel and Access.

**2/01 to 8/01                      Brown-Forman Corporation, Louisville, KY**  
**Senior Consultant**

- Designed and developed applications to extract mainframe database information.
- Extensive JCL work to offload several hundred files onto a single high-density storage tape.
- Utilized Cobol II, DB2/SQL, IMS DB, VSAM, Expediter, Excel and Access.

**4/97 to 11/99                      Computer Consultants of America, Inc., Cincinnati, OH**  
**Senior Consultant**

**AK Steel, Middletown, OH**

- Designed and developed PL/1 programs utilizing DB2/SQL to create history files for steel manufacturing units. Replaced Prime System applications.
- Designed, developed and implemented new mainframe applications.
- Utilized Cobol II, DB2/SQL and IMS DB/DC.

**Union Central Life, Cincinnati, OH**

- Provided analysis implemented solutions, documented system changes for a Y2K project. Extensive unit and system testing.
- Utilized Assembler and Cobol languages.

**Ohio National Life, Cincinnati, OH**

- Conducted needs analysis on over 500 modules for a Billing and Collection system Y2K conversion.
- Managed the conversion team activities from design through implementation, including parallel testing. Utilized PL/1, VSAM, Expediter and Lotus Notes.

**12/96 to 4/97                      Ohio Casualty Insurance Company, Hamilton, OH**  
**Senior Consultant**

- Designed and developed several screens and CICS programs for the Claims group.
- Utilized SDFT screen painter, CICS, Cobol II and VSAM.

**1/96 to 12/96                      United Parcel Service, Louisville, KY**  
**Senior Consultant**

- Developed and implemented CICS, Cobol II, DB2/SQL applications to add Pan-Euro countries to UPS Customhouse Brokerage systems.
- Participated in a RE-Architecture project.
- Provided problem-solving solutions and on-call production support.

**8/94 to 12/95**                    **Standard Register, Dayton, OH**  
**Senior Consultant**

- Implemented enhancements for a large on-line products distribution and management system.
- Utilized Cobol II, CICS, SUPRA/SQL and Changeman.

**8/94**                                **Zellerbach, A Mead Corporation, Dayton, OH**  
**Senior Consultant**

- Analyzed, designed and delivered warehousing and EDI mainframe applications.
- Utilized Cobol II, DB2/SQL and IMS DB.

**11/93 to 8/94**                    **Toyota Motor Manufacturing, Georgetown, KY**  
**Senior Consultant/Contract Programmer**

- On-site coordinator. Consulted with client management to maintain the client relationship.
- Facilitated problem-solving meetings. Contributed to the motivational needs of the employee group.
- Participated in the expansion of automobile manufacturing capacity. Worked on Purchasing, Supplier Tooling and Parts systems.
- Utilized PL/1, CICS, DB2/SQL and IMS DB/DC.

**12/92 to 10/93**                    **Kraft General Foods, Kankakee, IL**  
**Senior Consultant/Contract Programmer**

- Utilized MODEL204 language to maintain a large consumer database.
- Processed survey data. Utilizing Cobol, designed and developed consumer reports and mailing reports.
- Performed analysis and produced Audit reports.

**11/92 to 12/92**                    **The Associates - Kentucky Finance, Lexington, KY**  
**Contract Programmer**

- Converted general ledger accounting systems. Generated financial reports and some ad-hoc reports to facilitate the conversion.

**3/88 to 11/92**                    **The Kroger Company, Cincinnati, OH**  
**Senior Consultant/Contract Programmer**

- Responsible for analysis, design, and programming for an online purchasing system and warehouse management system.
- Developed and maintained online Macro Level Assembler and Command Level Cobol programs and Batch PL/1 programs.
- Mentored others in Assembler.

**2/87 to 3/88**                      **State of Kentucky, Frankfort, KY**  
**Consultant/Contract Programmer.**

- On site coordinator for consulting firm providing ten contract programmers to the state of Kentucky.
- Developed and enhanced on-line programs in an IMS DL/1 environment using Cobol II. Provided heavy IMS and CICS maintenance.
- Converted Cobol code to Assembler to use with core dumps for productionabend support.
- Worked with the System Resource Branch of the state staff using TPNS to stress test the KAMES on-line system.

**4/85 to 2/87**                      **Cap Gemini America, Dayton, OH**  
**Consultant/Contract Programmer**

**Mead Paper, Dayton, OH**

- Worked in design, documentation, and implementation of PL/1 programs in an IDMS-R database on-line environment.
- Devised Grade Cost system for use in manufacturing paper products.

**Brown & Williamson Tobacco Company, Louisville, KY**

- Designed and developed PL/1 programs and EASYRIEVE reports for Fabrication Scheduling and Manufacturing Materials system. The system coordinated the original orders through the entire process to final product.

**5/84 to 4/85**                      **Duke Power Utility Company, Charlotte, NC**  
**Consultant/Contract Programmer**

- On-site coordinator interfaced with client management to coordinate projects.
- Worked on the library management system.
- Designed, developed and implemented PL/1 programs, ISPF panels, CLISTS and JCL to maintain, secure, and control production libraries and their contents.

**10/82 to 5/84**                      **First National Bank of Southwestern Ohio, Hamilton, OH**  
**Systems Programmer**

- Created, maintained, and ensured efficiency and integrity of operating system.
- Provided technical support to programming and operations. Developed programming standards, oversaw technical education.
- Participate in system upgrade, apply periodic PUT tapes. Maintained CICS tables, ACF/VTAM NCP, installed NCCF/NPDA

**Programmer Analyst**

**JOHN Q. PUBLIC**

Experience Continued

- Created and maintained assembler programs for the Investment Deposit system.
- Supervised junior programmers in developing Assembler programs.

**6/78 to 10/82**

**R.L. Polk Company, Cincinnati, OH**

**Programmer Analyst**

- Initially hired as a computer operator and was promoted to programmer in 08/79.
- Worked in an IMS DL/1 DB/DC database environment using PL/1 and Assembler languages. Compiled statistics and produced geographic reports for the automotive industry.
- Provided production support including dump analysis and rescheduling of production jobs that have ended,

**8/73 to 6/75**

**U.S. ARMY, Fort Bragg, NC**

- Combat Engineer 82<sup>ND</sup> Airborne. Honorable discharge.
